

Specialty Machine Build

When it comes to specialty machine build projects, SourceOne is your one source for the entire project – from imagining the possibilities to updating your equipment for the future. SourceOne's team of experts listens to you carefully in the planning stages and presents you with a concept and price quotation based on your unique requirements. With SourceOne, your process automation project begins with a phone call and ends with improved productivity.

Choosing SourceOne for your automation project has many advantages and we encourage you to contact us for a free consultation on your next specialty machine build or rebuild project. Give us a call and you'll be on your way to partnering with a professional company that has over 30 years of experience in all aspects of engineering, manufacturing, finishing, and superior customer service.

- **Competitively Priced Proposals**
- **Several Controller Options Available**
- **In-House Design, Wiring, and Programming**
- **Your New Machine Will Be Extensively Tested**
- **On-Site Installation and Training Available**
- **Service and Replacement Parts Always Available**

SourceOne provides full documentation, service, and support, both at the time of delivery and in the future. We've been in business since 1974 and will continue to serve our customers as their needs grow and change.

- ▲ This machine was designed by SourceOne to automate a customer's assembly process, improving profitability and productivity.

Time to Automate? Think SourceOne.
Your One Source Manufacturing Partner.

More Than Just Machine Build!

- Artistic Fabrication
- CNC Laser Cutting
- CNC Machining
- CNC Tube Bending
- CNC Turret Punching
- Certified Pressure Vessel Welding
- Complete Product Manufacturing & Assembly
- Dedicated Manufacturing Cells
- Engineering Design & Drafting
- Expendable Plant Tooling
- Fabrication
- In-Plant Consultation
- Large Turning
- Maintenance Machine Work & Repair
- Offshore Outsourcing
- Packaging
- Plant Automation
- Powder Coating & Finishing
- Process Engineering
- Product Design
- Production Welding
- Prototyping
- Rebuilding of Special Machines
- Resistance Welding & Electrodes
- Sandblasting
- Sheet Metal Fabrication
- Special Machine Building
- TIG Production Welding
- Tooling & General Machine Work
- Warehousing

With our extensive capabilities, 30 years of experience, creativity and dedication to forming long-term partnerships, SourceOne can be an important component of your efficient manufacturing processes.

▲ SourceOne developed this automated process for an in-house manufacturing cell serving a local customer.

▶ A series of labor- and time-intensive processes was transformed into a fully automatic load, prep, and glue machine.

◀ Just add boxes! A complete packaging system saves time and money for SourceOne customers with high volume packaging needs.

▶ Here is just one example of SourceOne's capable electronics design and the wide range of operator controls offered. This panel was developed to operate a packaging system for one of SourceOne's customers.
