

PL850 Pro HD 30"

The addition of a powerful, easy-to-operate hydrostatic drive system to our popular PL800 PRO has quickly made this the aerator all other walk-behind aerators are measured against. With its wide, stable wheel base and pneumatic tires, PRO HD will pass through 36" gates and maneuver nimbly even in the heaviest landscaped residential lawns. With an approximate core spacing of 2.25" x 8", a core depth of up to 2.75", 30" effective aeration width and adjustable ground speed, PL850 will outperform all standard rotating tine aerators on the market in both quality and quantity of aeration.

PL850

PL050 StepSavr™

No other walk-behind machine can match the ease of operation or the quality of aeration on steep slopes, highly cushioned warm season grasses and all types of soils including hard packed clay, sand based and loamy soils. The hydrostatic drive makes both loading and unloading quick and easy. There is little doubt the PRO HD will be the favorite machine in your aerator fleet.

Quick Release Receiver

StepSavr does just what the name implies, significantly reducing crew fatigue and increasing productivity and profits. Mount a **StepSavr** behind your **PL850 Pro HD** aerator and change it from walk-behind to comfortable and safe ride-behind operation. The special receiver hitch mounts to the aerator frame in less than five minutes and permits quick release removal when not in use. A unique compound swivel knuckle allows maximum maneuverability and stability even on uneven terrain. With a 31" wheel base, 10" pneumatic tires and a stable, non-skid platform, your crew will love the ride.

For use only with PL850 hydrostatic drive aerators.

Model Number	PL850
Aeration Width Per Pass	30"
Approx. Core Spacing	2.25" x 8"
Rated Sq. Ft. Per Hour	Up to 30,000
Core Depth	Up to 2.75"
Minimum Gate Width	36"
Number of Tines	8
Approx. Operating Weight	322#
Engine Options	
Briggs & Stratton 875 Series INTEK OHV (Approx. 6.5 HP)	
Honda GX200 Commercial Grade OHV (Approx. 5.5 HP)
